

CAMLEY STREET NATURAL PARK

LONDON
SOUND AND LIGHT

London Wildlife Trust
Camley Street Natural Park

Capacities

Withthe useofthe canopy, the venue can host up to 200 standing guests.

Lighting

- Spotlights inthe main room are dimmable.
- Uplighters available at additional price – multiple colours available.
- Festoon lights on the canopy and external building lights will be turned on at dusk.

Internet

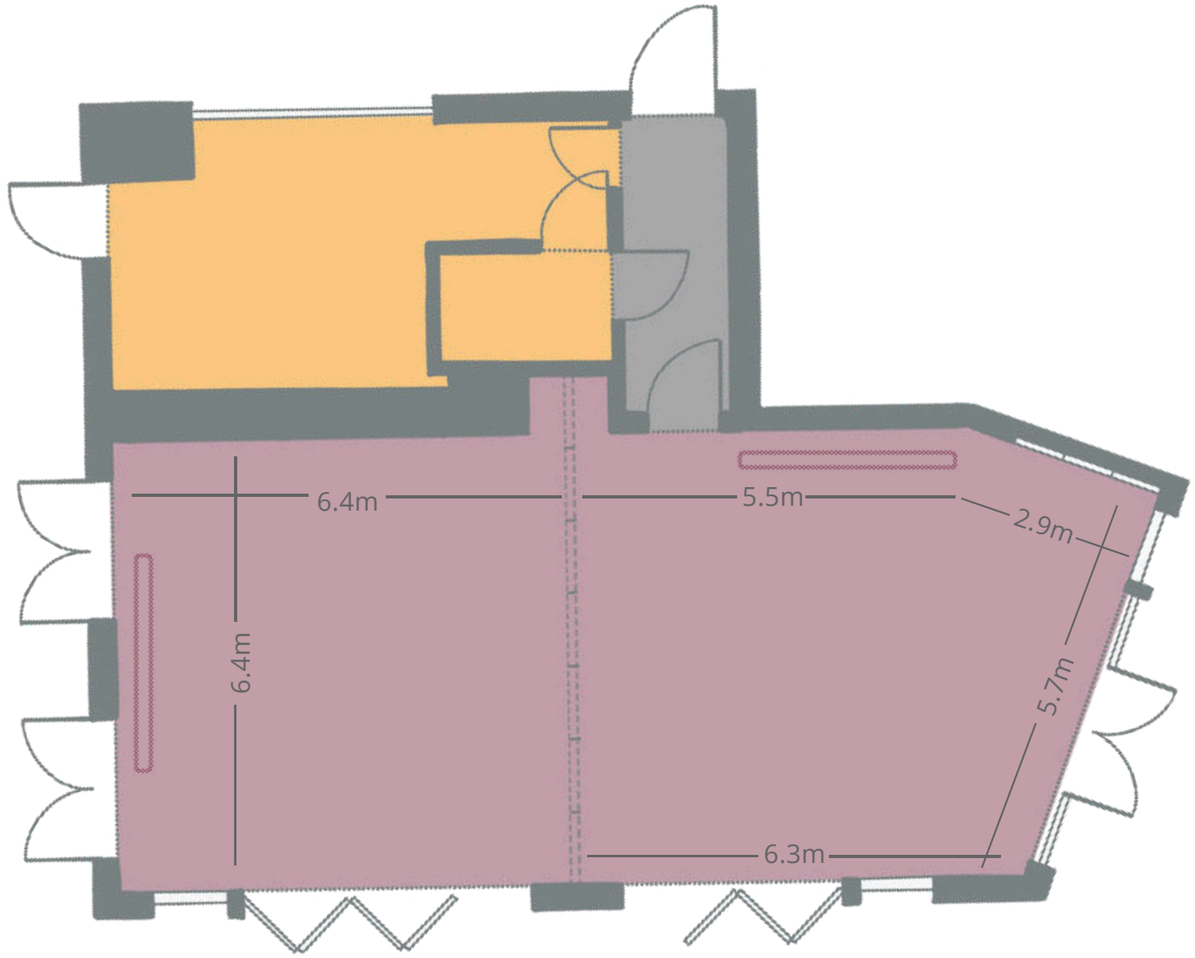

- Wifi name: London Wildlife Guest
- Wifi password: wildlondon
- This is used by all visitors to the reserve, if you require dedicated internet-use we recommend sourcing additional tech. We do not have facilities for conference calling.

Sound Management Policy

- There isan 85decibel limit, measured directly outside the building.
- After 9pm, music can only be played indoors.
- Large bands, heavily amplified music and drum-based music performances are not suitable for the venue.

Projector

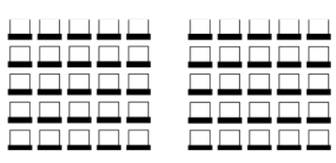

- Thescreen size is 100” and the format is 16:9.
- HDMI connection is required. We do not have adaptor leads for laptops that do not carry HDMI ports (e.g. macbooks, chromebooks). Please note when adaptors are used, any sound from the laptop or presentation will not play through the room speakers, we recommend using a laptop with a direct connection for this reason.

CAMLEY STREET NATURAL PARK
